

Covid Cases

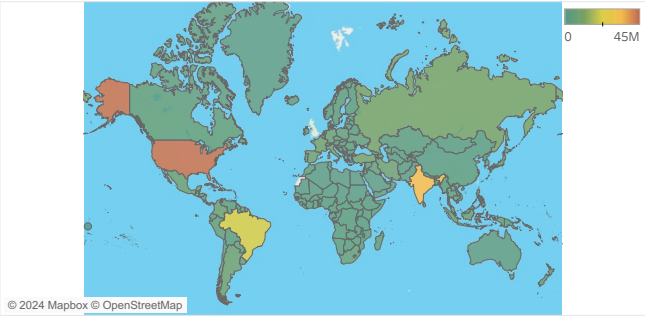

Global Numbers

| Global Numbers |              |                    |
|----------------|--------------|--------------------|
| Total Cases    | Total Deaths | Average Death Rate |
| 244,897,472    | 4,970,435    | 2.70%              |

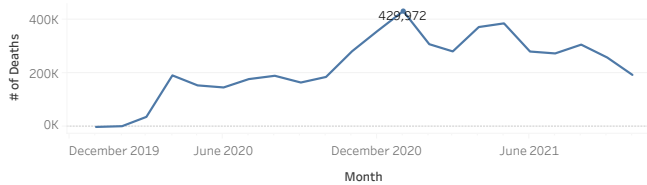

Top 10 Countries with Covid highest death rate

Population Infected Per Country

Covid Deaths Over Time

Insights

1. United states and India has the highest cases of covid.
2. High COVID-19 death rates may be attributed to limited access to adequate medical care.
3. While there was an increase in COVID-19 cases, a downward trend began in 2021.

Recommendations

1. Implement improved protocols to prevent the spread of COVID-19.
2. Enhance healthcare education in countries with limited medical resources.
